MEDOLIN CHRISTIYANA J

Software Developer | MERN Stack Developer | Frontend Developer

8122566849 | medolin2004@gmail.com | linkedin.com/in/Medolin | github.com/Medolin-2004

PROFESSIONAL SUMMARY

Aspiring Software Developer with hands-on experience in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Experienced in developing responsive web applications, integrating REST APIs, and building full-stack MERN applications. Completed web development and MERN stack internships with practical experience in frontend development and backend API implementation.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT
Database: MongoDB, MySQL
Programming: JavaScript
Tools: Git, GitHub, VS Code

INTERNSHIP EXPERIENCE

MERN Stack Development Intern - NoviTech R&D Pvt. Ltd. *Jul 2025 to Oct 2025 | Remote*

- Engineered full-stack features and multiple functional modules over a 3-month internship using MongoDB, Express.js, React.js, and Node.js
- Built reusable React components, reducing repeated UI development effort
- Designed and integrated REST APIs to support core application data flows
- Structured and managed MongoDB collections to store and query application data

Web Development Intern - CodeBinds Technologies *Jul 2024 | Offline*

- Delivered multiple responsive web pages using HTML, CSS, and JavaScript within a focused 2-week on-site training
- Applied responsive design principles to improve usability across mobile and desktop breakpoints

PROJECTS

ShopKart – E-Commerce Platform | *MERN Stack*

- Developed a full-stack e-commerce platform with user authentication, product search/filtering, cart, wishlist, checkout, orders, and admin management.
- Built secure REST APIs using Node.js/Express.js with MongoDB and implemented JWT authentication, protected routes, and role-based authorization.
- Designed an admin dashboard for product, inventory, user, and order management with real-time sales monitoring.
- Deployed the application using Vercel and Render with production environment variables and frontend-backend API integration

Bulk Email Campaign Manager | *MERN Stack*

- Architected a full-stack MERN app to manage personalized bulk email campaigns at scale
- Implemented CSV-based recipient upload and Nodemailer-driven email delivery, reducing manual sending effort
- Secured the platform with JWT authentication and tracked campaign/delivery status in MongoDB
- Designed a React dashboard for real-time monitoring of campaign performance

Online Bus Booking System | *Html, CSS, JavaScript*

- Built an interactive booking app with seat selection and a simulated booking workflow using HTML, CSS, and JavaScript
- Added form validation and a responsive UI tested across mobile, tablet, and desktop screen sizes

INTELEYE - Smart Surveillance for Weapon and Criminal Detection | *Final Year Project*

- Engineered an AI-powered surveillance system for real-time weapon detection and offender identification
- Applied YOLOv8 for weapon detection and DeepFace/FaceNet for facial identification
- Deployed a Flask web portal delivering visual alerts, email notifications, and timestamped incident logs

EDUCATION

B.Tech - Information Technology | St. Xavier's Catholic College of Engineering, Chunkankadai
2022 to 2026 | CGPA: 8.5 out of 10
